Munger Appointed to EIA

Mary L. Munger, founder and president of Intersect, has been appointed to the Electronic Industries Alliance's (EIA's) Board of Governors. Munger serves as Chair of the Small Business Development Committee of the Telecommunications Industry Association (TIA) and she is one of the TIA representatives on the EIA Board.

EIA is a national trade organization of electronic and high-tech associations and companies whose mission is promoting the market development and competitiveness of the U.S. high-tech industry through domestic and international policy efforts. Collectively, the alliance represents more than 80% of the \$430 billion electronics industry.

TIA represents providers of communications and information technology products and services and strives to further members' business opportunities, economic growth and betterment of humanity through improved communications. TIA's 35 board members, selected from member companies, formulate policy that is carried out by staff in the Washington, D.C. area and an international office in Beijing.

Intersect provides integrated power solutions to the telecommunications industry and is a Women-Owned Business Enterprise (WBE). More details about the company can be obtained at www.intersectinc.biz.
