

Verizon Wireless Telco and Safety Boxes

Actual product may vary from photograph.

Verizon Wireless Telco and Safety Boxes from Intersect deliver fast, easy and lightweight installation. The goals are to offer cost and space savings in lightweight, aluminum NEMA Type 3R enclosures.

UL 508A Listed, the Intersect Telco Box features AC and DC powered fans, an adjustable equipment rack, fuse panel, heat strip, and plywood back. The box is designed to be pad- or H-frame mounted, and includes a three-point seal for strengthened weatherproofing. The enclosure measure 60”H x 24”W x 20”D. Features and functions include a 19” rack mount rail; isolated 7-position, double-lug ground bar; telco board, plywood; wind prop 90 degree door stop; self-gripping gasket; AC/DC fan; a heater/thermostat; and GFCI duplex receptacle. The Telco Box includes a factory-integrated fuse box.

UL 50E Listed, the Safety Box measures 39”H x 20”W x 20”D. The box has plywood backing; an adjustable shelf; a document holder; a folding shelf; wind prop 90 degree door stop; and self-gripping gasket.

The Telco and Safety Boxes are constructed of corrosion-resistant, powder-coated aluminum. These lightweight panels install quickly and save valuable site space, as well as provide an aesthetically pleasing appearance. The cabinets are secure with pad-lockable door handles.
